

25.10.17 **Halt - Stand**

While heeling, the handler halts and the dog sits in the heel position. Once halted, the handler may not move their feet until moving off to the next station. The handler then commands the dog to stand, followed by the command to heel forward from the stand position. The dog must not move out of the stand until commanded to heel. In Advanced only, the handler may touch the dog to achieve the stand position.

27.10.18 **Halt - Pivot Right - Forward**

With the dog sitting in the heel position, the team pivots together on the spot 90° to the right and, without hesitation, moves forward in the new direction.
